

Problem Statement

Introduction:

In this programming challenge, your task is to create a Sports Academy application using Salesforce, leveraging the platform's capabilities for customer relationship management and application development. The application should encompass key functionalities related to managing sports programs and athletes.

Objective:

Project Name – Sports Academy Application.

Create a Sports Academy Application to manage multiple types of sports programs and athletes.

Design a Salesforce Application for the below given requirements.

using Salesforce, leveraging the platform's capabilities for customer relationship management and application development. The application should encompass key functionalities related to managing sports programs and athletes.

Objective:

Project Name – Sports Academy Application.

Create a Sports Academy Application to manage multiple types of sports programs and athletes.

Design a Salesforce Application for the below given requirements.

Requirements:

1. Data Model:

- **Sports Program Object:**

and athletes.

Design a Salesforce Application for the below given requirements.

Requirements:

1. Data Model:

• **Sports Program Object:**

Field Name	Data Type	
Sports Program Name	Text	
Program Type	Picklist	Individual Sport, Team Sport
Start Date and Time	Date and Time	
End Date and Time	Date and Time	
Location	Text	
Description	Text	

• **Athlete Object:**

Program Type	Picklist	Individual Sport, Team Sport
Start Date and Time	Date and Time	
End Date and Time	Date and Time	
Location	Text	
Description	Text	

- **Athlete Object:**

Field Name	Data Type
Athlete Name	Text
Date of Birth	Date
Contact Number	Phone
Email	Email

- **Program Athlete Object:**

Field Name	Data Type
	Master Detail - Snorts

Athlete Name	Text
Date of Birth	Date
Contact Number	Phone
Email	Email

- **Program Athlete Object:**

Field Name	Data Type	
Sports Program	Master Detail - Sports Program	
Athlete	Master Detail - Athlete	
Registration Date	Date	
Registration Status	Picklist	Registered, Confirmed, Cancelled, Withdrawn

2. Validation Rule on SportsProgram Object:

- A validation rule on Sports Program object to ensure that the End Date and Time are after the Start Date and Time

Field Name	Data Type	
Sports Program	Master Detail - Sports Program	
Athlete	Master Detail - Athlete	
Registration Date	Date	
Registration Status	Picklist	Registered, Confirmed, Cancelled, Withdrawn

2. Validation Rule on SportsProgram Object:

- A validation rule on Sports Program object to ensure that the End Date and Time are after the Start Date and Time.

Lightning Web Component(LWC):

- Create a Lightning Web Component that displays the list of all sports program(s). On selecting a particular sports program, the delete button should appear. And on clicking delete button the selected sports program should

- A validation rule on Sports Program object to ensure that the End Date and Time are after the Start Date and Time.

3. Lightning Web Component(LWC):

- Create a Lightning Web Component that displays the list of all sports program(s). On selecting a particular sports program, the delete button should appear. And on clicking delete button, the selected sports program should delete and the list should refresh automatically.
- Include this component on the Home Page of the Sports Academy Application.

Trigger to update Registration status:

- Implement a Trigger that automatically updates the Registration Status field on the Program Athlete record when an athlete is registered.

Create a Lightning web component that displays the list of all sports program(s). On selecting a particular sports program, the delete button should appear. And on clicking delete button, the selected sports program should delete and the list should refresh automatically.

- Include this component on the Home Page of the Sports Academy Application.

4. Trigger to update Registration status:

- Implement a Trigger that automatically updates the Registration Status field on the Program-Athlete records when an athlete:
- Registers à it should be updated to confirmed
- Cancels their registration à It should be updated to Withdrawn.

Data or Sample Input:

- Registers à it should be updated to confirmed
- Cancels their registration à It should be updated to Withdrawn.

Data or Sample Input:

Sample Sports Program:

Program Name: Javelin Throw,
ProgramType: Individual Sport,
Location: Pune

Sample Athlete Input:

Athlete Name: Neeraj Chopra,
Date of Birth: 26/06/2003,
Email: neeraj.chopra@gmail.com

Sample Program Athlete Input:

Sports Program: Javelin Throw

Sample Athlete Input:

Athlete Name: Neeraj Chopra,

Date of Birth: 26/06/2003,

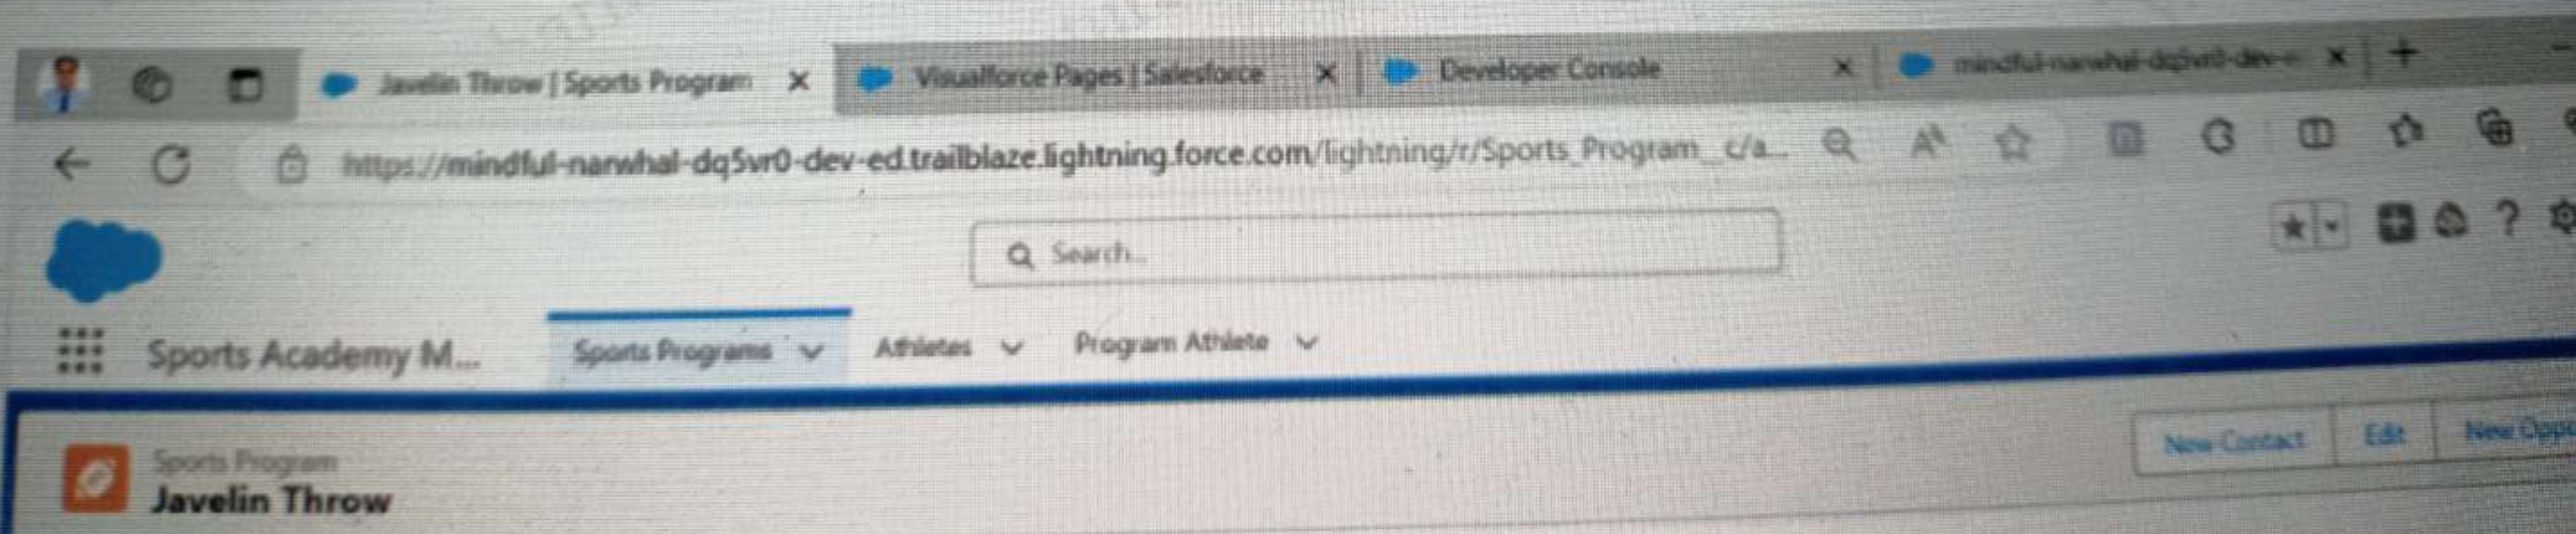

Email: neeraj.chopra@gmail.com

Sample Program Athlete Input:

Sports Program: Javelin Throw,

Athlete: Neeraj Chopra

Expected Output:

Expected Output:

The screenshot displays a Salesforce Lightning interface for a 'Javelin Throw' sports program. The page is titled 'Sports Program Javelin Throw' and includes a search bar and navigation tabs for 'Sports Programs', 'Athletes', and 'Program Athlete'. The main content area is divided into 'Related' and 'Details' sections. The 'Details' section shows the following information:

Field	Value
Program Name	Javelin Throw
Program Type	Individual Sport
Start Date and Time	25/01/2024, 12:00 pm
End Date and Time	27/01/2024, 12:00 pm
Location	Pune
Description	
Owner	Manish Sharma
Currency	INR - Indian Rupee
Created By	Manish Sharma, 07/01/2024, 5:13 am
Last Modified By	Manish Sharma, 08/01/2024, 10:32 am

The 'Activity' sidebar on the right shows filters for 'All time', 'All activities', and 'All types'. It also displays a status of 'Upcoming & Overdue' and a message: 'No activities to show. Get started by sending an email, scheduling a task, and more.' Below this, it states: 'No past activity. Past meetings and tasks marked as done show here.'
